

11 January 1952

MEMORANDUM FOR: Assistant Deputy Director (Administration)

SUBJECT: Telephone Office

It has come to my attention that there is dissatisfaction and low morale in the telephone branch. I believe this is under the jurisdiction of [redacted] Administrative Services. I do not believe that this is the kind of situation I should get into and would suggest that you request [redacted] to take a good look at the situation and take what steps he thinks are necessary to improve it. He might, for example, wish to ascertain whether or not rules and regulations for the girls are more strict than those which the telephone company has found by experience to be the optimum.

Stuart Hedden
